At Fisarmonica, my passion for technology translates into the optimization of educational platforms through my specializations in User Experience/User Interface and Cloud Computing. As part of an agile team, I contribute to the restructuring of systems, focusing on functionality and design to improve the user experience.

My background in Software Engineering, acquired at Anhanguera Educacional, and experience as a Full Stack Developer, combined with the ability to collaborate and adapt to changes, guide me towards the continuous growth and success of innovative projects in the technological area.
